TECHNICAL SKILLS

Java | Spring Boot | Hibernate | MySQL | Spring | React | HTML5 | RESTful APIs | Generative AI | JavaScript | CSS

SOFT SKILLS

Problem Solving | Teamwork | Effective Communication | Consistency | Adaptability

CERTIFICATIONS

- Full Stack Web Development
- Prompt Engineering
- Virtual internship in Java programming
- SQL(Intermediate)

PROFESSIONAL SUMMARY

Highly proficient full stack web developer with a strong command of Java development. Experienced in both solo and collaborative project environments. Exceptional adaptability, capable of harnessing generative AI and mastering new tech stacks swiftly. A valuable addition to any team, blending technical expertise with exceptional problem-solving and communication skills.

PROJECTS

1. FoodChoice | ⊕ | 🌐
Java | Spring Boot | Spring Security | RestTemplate | React.js | JavaScript

- Developed "FoodChoice," a recipe recommendation platform, leveraging Generative AI and rapidly acquired technical skills within a four-day timeframe.
- Implemented features enabling users to create and explore recipes, integrating a chatbot for interactive recipe suggestions.
- Ensured data security with end-to-end encryption using Spring Security.
- Utilized industry-standard technologies, including Java, Spring Boot, React.js, and RestTemplate, to execute this solo project efficiently.

2. Government Rural Employment Scheme | ⊕ | 🌐
Java | Spring Boot | RESTful APIs | Maven | MySQL

- Developed "Government Rural Employment Scheme" a comprehensive Job Management System.
- Implemented secure user authentication.
- Enhanced database efficiency with CRUD operations.
- Achieved seamless API integration and stable database connectivity.
- Utilized industry-standard tech: Java, Spring Boot, MySQL, RESTful APIs within a five-day timeframe.

3. ShopKaro | ⊕ | 🌐
Java | Spring Boot | MySQL | Hibernate | JavaScript | HTML | CSS | RESTful APIs

- Developed 'ShopKaro', a group project for e-commerce with user and admin roles within five days.
- Established secure user and admin login/signup.
- Developed a robust product search and filtering system.
- Executed efficient CRUD operations.
- Employed industry-standard technologies: Java, Spring Boot, MySQL, RESTful APIs, JavaScript, HTML, CSS.
